EXPERIENCE

1 YEAR EXPERIENCE | ENTRY LEVEL

PROJECTS

Fitscape Application

- This is undoubtedly the most beautiful dasd thing i've built so far and the kind of project that i'm presenting to the interviewer first thing
- it's basically a full stack fitness app that tracks your workout in the gym and evaluates your volume with a fully functional dashboard

Learnology Application

- An educational app with a lot of features, i've put so much effort on this one.
- You can message another people real-time
- You can fully controll the app through the admin dashboard

Homeland Application

- A real estate web app where you can search for the houses and apartments to purchase
- You can filter the location , price range , and also type of the estate

FantastK Ecommerce Brand

- An Ecommerce web app where you can browse latest and trendy products
- You can filter the products however you want with price and category
- You can also Add to cart , Login , Logout , and Signup

NETFLIX CLONE

- A very similar clone to the original famous , well-known one
- You can Signin , signup and watch trailer of the selected show category
- you can also add the show or movie to favourites

Fitness Website

- great commercial website provided from a company which interested in offering services to the gym community
- highly effective user interface to make the client want to buy a subscription
